Subject: Stopping lawful action

Hey all,

Today I was informed that Melinda will not be going to Washington, DC to present the crimes of the Judicial Branch to members of Congress responsible to stop the criminal acts. The conduct of the police, being utilized to stop constituents from meeting with their representatives in our Nations Capital, can only be obstruction of justice and terrorism. We can no longer trust police to serve and protect the American People, they have become enforcers of government to stop all who oppose the criminal acts of public officials. I see the stopping of the American People talking with their representatives in Washington as a means to maintain deniability that they have no knowledge of corruption in their democracy. But our Republic requires each and every one of us to have a voice to our representatives and challenge the criminal acts of Public Servants who abuse their power, abuse the people and act against the laws that govern their conduct. Our courts no longer enforce the law or our rights, the representatives and senators no longer protect our rights and our president is more interested in protecting bankers, lawyers, politicians and corrupt government, than leading our nation to better day. We all know they are not hurting because they are all stealing the tax payers blind all paid salary to fill prisons to capacity with any American that believes in the Constitution and the rights of the people. Slavery at its best.

Love You all

Denny
