Dear Sir;

Please find enclosed, stamp filed Court documents presenting facts, law and evidence of government corruption. To date these are unanswered and stand as truth.

I am giving you an exclusive opportunity to break this story and lead the reporting of this organized crime being conducted under the color of law. Soon I will be sending this story to CNN, MSNBC, FOX, OAN and NEWSMAX. I believe all it will take is for one journalist

with the courage to inquire, as to the conduct of our courts, to open the door of justice to the American People. Whether, that is your Newspaper or some other News outlet, I believe the story will break.

My goal is to do something that has never been done before, to bring a Federal Judge down into State Court and hold him accountable for his crimes against the People of Missouri. This will establish the United States of America is a Nation of law and all are accountable to the law for their conduct. My opposition is all BAR Associations within the United States of America.

My challenge to all BAR Attorneys is simple, "Present the law that gives UNITED STATES DISTRICT COURTS jurisdiction to conduct criminal prosecution." The Court filed documents establish that law does not exist.

Thank you in advance for any consideration you give this presentation. All I seek is a fair hearing of the facts, law and evidence of this cause of action. All I can hope for is a fair reporting of what transpires.

Sincerely,

Denny R. Hardin

P.S. Should you have questions my number is (816) 522-5587, please call after 4:00pm I work for a living and don't want to take away from my job.
