

"My Story"

My Bible tells me to prepare my message of peace. "Peace" is a state of mind. That mind must be free of conflict to be at peace. I am a sinner like all other Native Americans, we have each fallen short of the glory of God, within this world of sin. We are all the same. My message of peace is simple "Stop Hating". I have hated government for so long, it is time to set my soul free and hate them no more.

I am a Native American. "Racists" would ask "What Tribe"? The answer is "There is only one." it includes every man, woman and child born within a State of the United States. It includes all people, regardless of anything. We are all a part of the family of Native Americans. One Nation under God, indivisible, with liberty and justice for all. Each of us are represented by a star, based upon the State we were born in, united by our flag, where all are equally represented. To disrespect our flag is to disrespect us all.

To achieve peace, I must forgive all those who have wronged me as my Lord Jesus Christ forgives me of my wrongs against others. For you to understand me you must walk a mile in my shoes. I am a "Criminal", a "convicted felon" who served a 10 year sentence and 3 years of probation. My "Character" has been "Assassinated" to protect corruption within our government. It is my hope that my story will bring about real change that will make us all proud of our government and restore faith in God to the American People.

It all started with a dream, I dreamed of helping Native Americans. God answered my prayers with the knowledge to create a private bank. A private bank can only provide one service, pay off debt. The desire to help people pay off their debts cost me dearly, it put me at war with government and took my life, liberty and freedom. To date I have not been proven wrong, my "Private Bank" stands in honor, with clean hands. Commercial Bankers and Presidents of the Federal Reserve Banks have conspired with government to stop my private bank from helping the American People.

With no advertising my private bank was known from coast to coast of the United States. Me and my staff operated a private bank in the ghetto of Kansas City, Missouri. I charged the people \$100.00 per \$100,000.00 to pay off their debts. I am totally responsible for all transactions of the private bank that was operated within the law of Commerce. To date no "Bonded Promissory Note" has been "Dishonored" by the "New York Federal Reserve Bank" the only financial institution that has authority to do so. Bankers have united in "Conspiracy of Organized Crime" to refuse to process legal tender for the payment of debt. To stop my private bank, Bankers sent in the FBI.

At this time of my story I was on probation for the crime of "Practicing Law without a license". Since I was required to report the income to my Probation Officer I reported the income of my bank the first month. My Probation Officer said I could not do this, it is fraud. So he contacted the FBI and told them I was operating a private bank. The FBI had been getting complaints from Bankers about my private bank, the P.O. complaint provided the opportunity to act.

The FBI went to the United States Attorney's Office and together they went to a Magistrate of the United States District Court for the Western District of Missouri. The Magistrate violated the 4th Amendment of the Constitution by issuing a search warrant without "Probable Cause".

* Point of Law: "Probable Cause" is a "Complaint" signed by an injured party saying you have done wrong. The complaint gives the Magistrate personal and subject matter jurisdiction. Without a complaint the Magistrate has no authority to act in any manner. To date no Complaint has been produced.

The FBI took the "Fraudulent Warrant" to the Kansas City Police who dispatched S.W.A.T. to exercise the warrant at my home. My next visit to the Probation Officer, when I left, I was surrounded by FBI agents. At the same time, FBI agents and the S.W.A.T. team were breaking into my house/bank. They threw my daughters to the ground with cocked guns in their faces. They took my computers, bank records, ledgers, money and personal property. I told the FBI all they had to do was

ask and I would have provided copies of everything, but instead they used force to rob my bank. When leaving the FBI told me to cease banking until they had completed their investigation. I told them I would stop when they showed me a law I had violated. To date no law has been produced.

In response, I filed a "Complaint of Bank Robbery" against the FBI, US Attorney and Magistrate. This was done under the authority 18 U.S.C. 2113. This was the first denial of protection of law. The day after this "Robbery" my computers were replaced and I was back in business. Because the FBI had illegally seized my bank records, the FBI sent out agents all over the country to my customers, with the purpose of getting a "Complaint" signed against me. I received calls from all over the country, from my customers, informing me the FBI tried to intimidate them into signing a complaint against me. The FBI didn't like the fact all my customers refused their request. To date no complaint has been produced.

The private bank was expanding and paid

off over \$168,000,000.⁰⁰ of debt. The FBI could do nothing in Federal Court without a complaint. So the FBI went to the "Jackson County Prosecuting Attorney's Office" to violate my State Probation. The day of the hearing, the last day of my probation, the FBI, Prosecutor and Judge walked out of chambers together and proceeded to rail road me to State prison. The FBI can utilize any government branch to violate Constitutional Rights, they are masters of breaking the law without accountability. I believe the FBI should be abolished as an "Organized Crime Syndicate".

While I did not expect to be rail roaded to prison, I was stopped from helping the people. They sent me to a maximum security State prison. While in prison the FBI came to interview me, I asked do I have to talk to you? They answered no, so I ended the meeting and left. My wife filed "Habeas Corpus" in the Court and the Court delayed the proceedings until I was released. This was the second denial of protection of law. On the day of my release I was informed I would be picked up by US Marshalls on a Federal Warrant. I was suprised when the FBI showed up to take me, I requested a copy of the warrant and the FBI

told me to shut the fuck up or I would regret it. To date no warrant has ever been produced.

* Point of Law: The FBI is an "Investigative Agency" it has no police powers or authority to exercise warrants. This is why the FBI cons local authorities to carry out their "Organized Crime" and fraudulently claims the authority to violate the people without "Probable Cause".

The FBI agents took me to their headquarters in Kansas City where I was photographed, finger printed and DNA samples were seized without warrant or consent. I was told by the FBI to cooperate or they would beat the fuck out of me. The FBI took me to the United States District Court for the Western District of Missouri. The FBI turned me over to the US Marshalls who took me before the same Magistrate who issued the search warrant without probable cause utilized to rob my bank.

On May 10, 2010, I appeared in the District Court and challenged the Court to state its jurisdiction on the record, the Magistrate refused.

I requested the Magistrate recuse himself for his personal "Conflict of Interest" because he illegally issued a warrant that started the process, the Magistrate refused. I requested bail be set, the Magistrate refused. The Magistrate appointed a Public Defender to represent me who I fired at this first appearance. The Magistrate asked me to enter my plea, of which I refused, so the Magistrate entered a plea of not guilty on my behalf. This hearing violated all law governing the conduct of Judges and violated my 5th Amendment right to due process of law and the 8th Amendment right to bail.

I was sent to CCA (a private prison) where I started fighting my case, I filed all motions allowed by the "Federal Rules of Criminal Procedure" to challenge jurisdiction and obtain discovery including copy of complaint, copy of warrant and copy of probable cause. The Magistrate denied all motions, without Prosecutor's response, and had me put in solitary confinement with no mail, no visits, no phone and no commissary. This was done to violate my 1st Amendment right to petition government for the redress of grievances, as well as the 5th Amendment right to due process of law. I was in Solitary Confinement

for 7 months.

After solitary confinement I was taken back before the Magistrate and refused to be represented by the Public Defender. Thus began the mental evaluation to determine if I was competent to represent myself. I was sent to Littleton, Co. for mental evaluation and housed with convicted felons. When it was realized that I was not convicted yet, I was sent to solitary confinement. I was given a series of tests to determine if I knew court and procedure. I passed all tests and was found competent to represent myself then returned to CCA and taken back before the Magistrate. The Magistrate was not satisfied and ordered me to Butner, NC. for full mental evaluation. There I was housed with the criminally insane for 7 months. While there I was attacked and beaten by a sociopath, I suffered a broken nose, broken jaw and cracked eye socket. The doctor stated in his report that he believed I was sent to mental evaluation to delay my trial.

* Point of Law: Every Defendant is entitled to a speedy trial, the Magistrate kept me incarcerated for two years without trial in violation of the 6th Amendment.

This time of unlawful confinement establish Magistrates can do anything they want regardless of the law without accountability.

I was sent back to CCA and taken back before the Magistrate who was forced to allow me to represent myself. I filed an appeal to the Chief Judge who was to try my case. The morning trial was set to begin, the Chief Judge denied all pre-trial motions and withdrew from the case. The first appearance before the District Judge I challenged jurisdiction and was denied. I requested the issuance of one subpoena for an audit of my account in the New York Federal Reserve Bank. The District Judge denied the request stating, "That account does not exist." This denial violated the 5th Amendment right to due process of law and the 6th Amendment right to subpoena. I requested "trial by jury of peers" and was denied by the Judge who offered a "jury trial". I refused and went with a bench trial making the Judge personally responsible for his "judgment". By the refusal of that which the Constitution of the United States of America guarantees to all Defendants of a criminal case, the Judge created a court of impossibility where no defense was possible.

During the trial every time I spoke, I started with a challenge to the jurisdiction of the court, and the Judge denied it. Every prosecution witness was asked two questions by me; 1) Did I injure you? All witnesses answered "no". and 2) Did you sign a complaint against me? Every witness answered "no". After each and every witness I said, "Let the record reflect this is not a competent fact witness for the purpose of the indictment." The US Attorney had no "standing" to be in court, no complaint, no competent fact witness, and no injured party. The US Attorney committed "fraud on the Court" aided and abetted by the District Judge.

* Point of Law: The law requires the Plaintiff to establish the jurisdiction of the court. Because the US Attorney was allowed to proceed without meeting this lawful challenge, the Judge acted in "fraud" without jurisdiction in clear "Treason".

I did not put on a defense because there was nothing to defend against. Without evidence of guilt the Judge pronounced me guilty and sentenced me to 10 years in Federal Prison and 3 years of probation.

The Judge refused to provide findings of facts and conclusions of law to support his "Judgment". I am guilty because he said so, not the law, not the facts and not the evidence.

Note: My wife scraped together the money to get the transcript. She paid for it. The transcript was seized by the Public Defender who has refused to release it to date. This act denied me the right to appeal the merits of the case. This violated the 5th Amendment right to due process of law in furtherance of "Conspiracy against rights".

My custody level was set at minimum security but the Federal Prisons Industry, Inc. also known as Bureau of Prisons (BOP) does not follow their own regulations. Their policy says prisoners can not be put two levels above their custody level. The ranking of prisons goes minimum, low, medium and high. I was sent to a medium prison at Pekin, Ill. A medium prison is the lowest level prisoners with a life sentence can go down to. About a third of the prison was lifers who would never get out. These individuals had nothing left to lose. For three years I lived

among these violent criminals and learned their code. This prison is run by the "Shot Callers" that serve as judge and jury of those within their race. The shot callers that maintain the peace between races do so by punishing those within their race who commit an infraction against other races or within their own race. Prison is a racist society. Violence is used to punish and was a common occurrence. I learned if it doesn't involve me, it is none of my business. By being beat in the mental institution I learned interfering in others' business has consequences. My cellie "Sam" kept me on track and allowed me to survive in this hostile/dangerous environment.

After many years in a medium I was transferred to a low at Big Spring, Tx. The difference between a medium and a low is a medium has two man cells and a low is a dorm setting. Here I took a job in the carpentry shop and enjoyed working in a shop with industrial tools for woodworking. BOP policy says I must be housed within 500 miles of my home. This policy is to allow inmates to maintain family relations. In my case I

was not within 500 miles at any institution I was at. The purpose of being kept outside the boundaries is to make inmates lose their family ties by making visits expensive and troublesome. My girl visited me at every institution I was at.

After years at Big Spring low I was told I was being sent to a camp at minimum security. I hoped to be sent to Leavenworth, Ks. where my wife could visit, but I was sent to Big Spring Camp across the street. Again the camp was a dorm setting but at least I was outside the fence looking in.

I challenged the BOP policy for being housed over 500 miles from my home. Orders came down to move all prisoners back within their home districts. Some prisoners had to be returned to Hawaii. Needless to say this pissed them off. Again I hoped for Leavenworth Ks. to get visits, but instead I was sent to the USP (maximum security) Camp at Thompson, Ill. This showed me just how stupid our government truly is. USP Thompson is empty, it only has prisoners in the camp. Thompson has a full staff being paid by tax payers to

guard an empty prison. Thompson was built to house terrorists from Betmo at Guantonamo Bay, but the citizens of Illinois stood up and stopped it. So they just act like they have prisoners. The guards practice their maximum security techniques on the prisoners of the camp who are supposed to be in minimum security.

At this prison I worked in the kitchen scrubbing pots and pans. I completed my incarceration and was looking forward to the Halfway House. On the day of my release my wife picked me up in a Mitsubishi Spider and we raced to Leavenworth Kansas at 90 mph. This was necessary to reach the Halfway House within the time limit allowed. I always rode with my wife driving 55 in a KIA give her a Spider and she drives 90 mph.

During these years of incarceration I was sent from prison to prison. Everytime I was transferred my wife would file Habeas Corpus in the District Court of Jurisdiction for that prison.

* Point of Law: Habeas Corpus requires the prisoner to be brought before the Judge and

released unless lawful grounds
can be shown to detain them.

Every District Court refused Habeas Corpus in violation of Article 1, Section 9 of the Constitution of the United States of America that says it will never be suspended. Every denial of these District Courts were appealed to the Circuit Courts who denied Habeas Corpus as well. In every case the matter was appealed to the United States Supreme Court where the Clerk dismissed the case in clear violation of the 5th Amendment right to due process of law. The conduct of the District, Circuit and Supreme Courts establish a "Public Record" of over 150 Judges and Justices fraudulently claiming authority to dismiss Constitutional mandates in "Conspiracy to defraud" 18 U.S.C. 371. All these Judges and Justices have lost their "Judicial Immunity" by standing in opposition to the Constitution of the United States of America. All should be impeached and removed from our "Public Offices" and charged with their crime of "Treason" 18 U.S.C. 2381. This is the responsibility of Congress to investigate.

Note: My wife was capable of writing the complex "Writ of Certiorari" that were accepted as legally correct by the Supreme Court, something less than 1% of lawyers in the United States can do.

Upon arrival at the Halfway House I was given permission to have a phone and could talk to my wife. I was first allowed weekend passes to go home. I was blessed to have a home to go home to, most with a ten year sentence lose everything. My home had suffered greatly from the neglect of mine for not being there to take care of it. The roof leaked and destroyed the sheetrock in the wife's bedroom. The ceramic tile had fallen off the wall in the shower and plastic had been taped over it to allow showers to continue. The kitchen sink flooded and ruined the kitchen floor. My wife suffered greatly during this ten year sentence and with the help of friends and family managed to keep our house and cars. I am truly blessed to have a great woman who stood beside me during all this persecution.

I was required to have a driver's licenses

and job before I could be put on home confinement. I obtained my licenses and my Miata was legal and waiting for me. I was given weekend passes and utilized them to repair the roof and started fixing the house. My best friend Bobby and his wife watched over my girl while I was gone and helped me get a job redoing an apartment building. Bobby calls my wife his favorite charity. I thank God for these people in my life.

With a licenses, car and job I was placed on home confinement. Home confinement makes your home a prison, you are given a curfew and required to stay within a certain distance of your telephone. The telephone is attached to an ankle monitor to confirm your presence. I was allowed to work and had frequent visits from officers of the Halfway House to my job. I was called at my home frequently and was required to answer at all hours to prove I was home. These calls would come at 2:00 or 3:00am, to miss a call could result in return to the Halfway House. This got so bad my wife called the Director of the Halfway House to complain about these calls. She called him in the middle of the night and told him everytime

the Halfway House called me, she would call him right after. After a couple of calls the late night calls ceased.

Before leaving the Halfway House I filed in the Western District showing all the Constitutional rights violations of the District Judge. as a "Tribunal" I wrote "Judgment with findings of facts and conclusions of law" condemning the conduct of the District Court. This Judgment was sent to the Chairmans of the House and Senate Judiciary Committees, the Chief Justice of the Supreme Court and the President of the United States. The District Judge recused himself and the new District Judge refused to make the "Judgment" a part of the record and proceeded to enforce a "Void Judgment". The new District Judge threatened me with 54 years in prison if I filed anything else in court. Thus denying me my 1st Amendment right to petition government for the redress of grievances.

The Halfway House decided because I was challenging their policy to the BOP, that I was too much trouble and released me to probation.

The original probation officer met with my wife to discuss the terms and conditions of my probation. He told her I could travel anywhere within the jurisdiction of the Western District. She was told I would be drug tested as soon as I was released and would not be tested again unless I did something to make him believe I was doing drugs. This gave me hope I could go fishing and take a long needed vacation. This hope was soon shattered when the Probation Officer was transferred and a new one appointed. By the new probation officer's policy I was required to have a job where taxes were taken. I could not be away from my house at night. I was not allowed to travel over 50 miles from my home without written permission. I was required to undergo psychological evaluation as ordered by the original sentencing judge, since recused from my case. This was carried out by a Corporation called "Rediscover" here in Kansas City that conspires with probation officers to violate the probation of prisoners. This was established as a "Public Record" when I was violated by my probation officer for failure to have a mental problem that needed treatment. I was charged \$240.00 for this evaluation and

to defend myself against this attack. I told the Judge of the District Court that my probation officer and the psychiatrist of Rediscover were working in conspiracy to violate my probation.

The District Judge ordered a second evaluation at a facility in Leavenworth that had no connection with Missouri Probation Office. It was determined I had no need of treatment. The US Attorney wanted me sanctioned with 400 hours of community service for this probation violation. I told the Judge I was trying to change my thinking that all government employees are bad. I told the Judge I was changing my belief to there is good and bad in everything including government. The Judge said he was ready to send me back to prison that day, but decided on no sanctions. I was left on probation at the mercy of my probation officer.

To comply with my Probation Officer I changed jobs to become a Maintenance man for a 150 unit apartment complex. This was done to meet the requirement of taxes being withheld from my paycheck. Again my best friend

Bobby came through for me and got me a job with the owner who was a friend of his. During this time I repeatedly requested permission to go fishing, because I fish at night for catfish my probation officer refused me permission to be away from my house at night. This was against BOP policy because I am no longer on home confinement. But in my case my probation officer does as she pleases regardless of the policy she is lawfully required to follow. My employer wanted me to go to the Lake of the Ozarks to work on his house down there. My probation officer refused me permission to travel even though it was within the jurisdiction of the Western District of Missouri. There are two types of probation officers; 1) those who work to return prisoners to society as productive citizens, and 2) those who persecute the prisoner to cause them to give up and do something stupid that can justify sending them back to prison. In my case the persecution is without end. I wanted to give up many times and could justify just saying fuck it all and give up. Only the love for my girl kept me from doing so.

Though I have no history of drugs in the Federal System I am subjected to frequent drug testing. Every drug test is an attempt of my Probation Officer to violate my probation for using alcohol or a controlled substance. In February of 2021, my Probation Officer got her wish, I tested positive for THC. I have a full time job that I work hard at. My hands were aching and I used CBD oil to relieve the pain it worked great. During this time I suffered a heart attack and was hospitalized to have 5 stents put in my heart. The diet of prison for years, and the stress of life on probation always scared my probation officer will arrest me and return me back to prison, almost killed me. While in the hospital I called to report my heart attack to my P.O., she informed me of my second probation violation. She asked for my statement and I told her about the CBD oil and she reported that to the judge. At her first visit to my house after I was released from the hospital, she informed me no sanctions would be imposed. She also informed me not to use CBD oil again.

Because I started smoking in the Halfway House and need to quit because of my heart attack I

requested to use CBD oil to quit smoking. I was given drugs by the doctor but they messed with my balance and I could not work on them with power tools. So I requested the use of CBD to quit smoking and was denied by my Probation Officer. I believe this denied me the right to be secure in my person against illegal seizure in violation of the 4th Amendment. I believe I should be allowed to treat my body as best as I can to maintain my health, my Probation Officer seized my body and denied it medical treatment. CBD is legal in the State of Missouri but utilized by Probation Officers as a tool to justify violation of probation and return to prison. Rediscovers conducts illegal searches for THC without warrant in violation of the 4th Amendment to aid Probation Officers in this process. Together they are able to maintain power over the individual and operate a lawless system of persecution that is utilized to demoralize the individual.

I have maintained the same job since I was placed on probation, the owners have changed but my position has remained the same. I have worked to the point of almost

killing myself maintaining a full time job and working my days off to restore my house. It seems that no matter how hard I work it is never enough for my Probation officer.

I have been silenced, under threat of prison, by corrupt government officials present in the "Public Record" of "DENNY RAY HARDIN" and all derivatives. By those named in title a conspiracy against the rights, privileges and immunities stated in the "Supreme Law of the Land" has been exposed. The elements of this "Conspiracy" are sedition, insurrection and treason against the "Constitution of the United States of America". Every government official appointed to a "Public Office" must sign a Form 61 "Appointment Affidavit" to support our Constitution. In my case all those involved worked in concert to deny me all the Law requires. With the end of my probation on February 14, 2022 I have completed the fraudulent sentence imposed without due process of law in violation of the 5th Amendment. I believe all involved are corrupt and guilty of criminal conduct in our "Public Offices". I have no power to fight this alone,

so with "My Story" I give this to God and pray He/She will send good people to my aid to hold those accountable who have violated our law.

What I have shown you is what has happened to me personally, do not believe this is only done to me, it is done over and over again in all courts across the United States of America. The purpose of this system is to instill fear of government and make all those who oppose corruption give up knowing they can not win no matter what the law says. BAR Attorneys have a free hand to break the law and believe no one can challenge their system because it is so complex and no one can figure it out. But we see it clearly and know it is wrong. Now is the time to determine if these "Public Servants" are above the law or are they accountable to the law for their personal conduct. I say the eyes of America are upon you and you will be judged by your deeds. Everyone has a choice it is time those choices had consequences.

I have stood in my way for far too long by hating all attorneys for the conduct of the few. By abandoning my hate and changing my mind I open the door for those God sends into my life. By hating I have blocked God's help to achieve accountability of those who have damaged my estate. From this day forward I trust in God to lead me in all aspects of my life. God's will be done!!

With my story I have told the truth, the whole truth and nothing but the truth to the best of my knowledge and ability. So help me God.

Signed as a living man.

denny ray hardin
